

Hi, I'm Jonathan Stamp BA(hons), a graphic designer and illustrator offering a comprehensive, competitive - and friendly - design service to all kinds of businesses and creative organisations.
Designing everything from brochures to book illustrations, posters to programmes, and logos to leaflets, I have fifteen years experience of working with clients ranging from international brands to the arts - including the Birmingham Repertory Theatre, Sony, Godskitchen, DHL, Bravissimo, Faith Shoes and Marks & Spencer.
After studying art, photography and design, I did a degree in Fashion and Printed Textiles at John Moores University, Liverpool. I specialise in graphic design and illustration.
I particularly enjoy working one-to-one with clients, I'm very comfortable either with a specific brief or offering more creative solutions, and I can take on any job, no matter how large or small.
Do take a look around the site, it should give you some idea of what I can do for you!
